

Please only use placeholders from this list in your SP 4.0 email template or the placeholders will not work.

SP 4.0 Placeholder List

Placeholders pull data from the product and are transformed in the email. Copy and paste the full placeholder, including the double curly brackets.

Limitation: The {{Condition.Question}} and {{Condition.Answer}} placeholders currently only display the first question and answer for a given SP review rule. A future update is needed to display all potential condition questions and answers that triggered the rule now that multiple conditions can be defined in the rule builder.

Placeholders	Placeholder Description	Placeholder can be used in the following email templates:
