## Terms

The terms used in the Conformance Level information are defined as follows:

### Supports

The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.

### Partially Supports

Some functionality of the product does not meet the criterion.

### Does Not Support

The majority of product functionality does not meet the criterion.

### Not Applicable

The criterion is not relevant to the product.

### Not Evaluated

The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

## WCAG 2.x Report

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).
